

Ames Contractor Council

Meeting Agenda

Wednesday, August 12, 2025

1300-1600 Pacific

Building N227, Room 304 and Virtual

³⁵₁₇ **NASA Ames Center Management & Operations Updates: Amir Deylami.**

- Busy time and apologies for not attending recently. I appreciate the ACC support as we figure out the new administration requirements.
- Deferred resignation program in place. We have lost agency wide 4,000 people. Ames closer to 300 people. This has a big impact on our site
- Budget request 25% reduction. The budget cuts is closer to 40-50% range and trying to figure out the impact and better understanding. We don't have as much flexibility as we have had in the past.
- We will do our best to work through problems on contracts. The budget numbers are not fully loaded yet, so we need to make sure we get all the numbers and work in all areas.
- We are currently 95% through our Master Plan. Fortunately, we had already been working on efficiency; we have been able to reach a 43.7% on campus square footage. We were managing 5million square feet campus and we now have a 3 million square foot campus to manage. We continue to work on that.
- Christine Monroe's replacement will be announced soon.
